What the Herald Thinks-Rapid Transit-The Bond Forgers, etc.

New York, August 26 .- The Herald this norning at length discusses editorially the question of whether, in view of Mr. Delano's retention in the Cabinet with the grave charges against him, the other members should not at once resign. The Herald says nobody doubts who has read the charges of Prof. Marsh, Mr. Welsh, Mr. Walker and others, and the exposures made, that under the management of Mr. Delano there has been gross corruption in the Indian Bureau known to him.

Mr. Delano there has been gross corruption in the Indian Bureau known to him.

The accusations against him are positive and circumstantial, and are made by men of honor and character who are in a position to know whereof they speak. The President in the face of these charges retains Mr. Delano. Can the rest of the Cabinet afford to retain their places? General Grant does not dismiss hms, and the real question is, shall they lead their characters to General Grant to shield an officer openly and squarely charged with grave and systematic corruption and fraud. We do not pretend to advise them, for it is a question which each must settle for himself.

The Commissioners of Rapid Transit are now engaged in a discussion relating to the route to be selected. They express the opinion that they will decide upon a route by September 6th, two days in auvance of the time fixed by law. They believe that the fare will be fixed at either five or three cents, thus enabling the poorer classes to live in the suburbs and help to empty the overcrowded tenement houses in the city.

W. J. Rae, who was arrested on charge of putting forged California and Oregon Ranroad bonds upon the market, was before Judge Tappan, in the Suprome court Chambers on labeas corpus proceedings. The prisoner's discharge was asked for on the grounds that there was nothing to hold him on except his own admission that he procured bonds irom a man named Hall. That said Hall had been discharged, and that the presumption is that all the persons concerned are innocent. The decision was reserved.

The party was followed by an old frontiersman named Williams, who pursued them twenty miles and overtook them at the head of Devil's run, had a fight, killed two Indians, and recaptured twenty-five head of stock. The Indians have killed a man in Mason county.

The laborers' riot at Brashear was greatly exaggerated. Only one man was wounded, and he only slightly. The trouble was caused by the laborers on Morgan's wharf, who demanded cash for labor, instead of store orders. All is quiet now, and no further disturbances are expected.
